Address:	Phone:	
City:	State:	Zip Code:

**Return this form with your completed Litholink urine sample.**

For Labcorp Use Only.

## PATIENT INFORMATION

# Welcome!

Labcorp offers a Litholink test that is specialized for kidney stone formers. Your provider has requested that you complete the Litholink At-Home Kit. The At-Home Kit will be shipped directly to your home (or address provided). Your provider is waiting on these test results in order to start your kidney stone treatment plan.

Things to know about your Litholink At-Home Kit:

- **If you were given a test request form/lab order for your At-Home Kit, you will need to return it with your completed urine samples. Failure to return this form may result in your samples being rejected and having to repeat the entire process again. If your provider faxed the test request form or lab order directly to Labcorp, we will have it on file.**
- Expect your At-Home Kit to arrive 5–7 business days from the date the order was placed.
- Your At-Home Kit will include everything you need to complete your 24-hour urine collection(s). Detailed instructions, collection supplies, return shipping box, and a pre-paid FedEx label are being sent directly to you.
- If you are planning to begin your At-Home Kit immediately upon receipt, note the following:
  - Eat and drink normally the day before you start your collection and during the collection process.
  - Stop taking Vitamin C (pill form, vitamins, and/or supplements) that is greater than 100 mg per day 3 days prior to the start of your At-Home Kit. Vitamin C occurring in foods and drinks can be ingested as normal.
- Upon completing and returning your At-Home Kit, allow 7–10 days for your provider to receive your Litholink results.

**Need help completing your At-Home Kit?** Please watch the collection instruction video for the 24-hour collection process or scan the QR code.

**Further questions?** Please send us an email at: [LitholinkInquiry@labcorp.com](mailto:LitholinkInquiry@labcorp.com)

# ¡Bienvenido!

Labcorp ofrece un examen, denominado Litholink, que está especialmente diseñado para personas que forman cálculos renales. Su médico ha solicitado que usted realice este examen utilizando el kit para el hogar de Litholink (*At-Home Kit*). Este kit se le enviará directamente a su casa (o a la dirección que usted indique). Su médico está a la espera de los resultados de este examen para poder iniciar su plan de tratamiento para los cálculos renales.

Cosas que usted debe saber sobre su examen Litholink con el kit para el hogar *At-Home Kit*:

- **Si le entregaron un formulario de solicitud de examen/una orden médica de laboratorio para su *At-Home Kit*, usted deberá remitir dicho/a formulario/orden junto con sus muestras de orina recolectadas. Si usted no envía este/a formulario/orden, sus muestras serán rechazadas y usted tendrá que repetir todo el proceso del examen nuevamente. Si su médico envió por fax el formulario/la orden de laboratorio directamente a Labcorp, nosotros la tendremos en archivo.**
- Su *At-Home Kit* llegará a su domicilio en un plazo de 5 a 7 días hábiles contados a partir de la fecha de ingreso de la solicitud.
- Su *At-Home Kit* incluirá todos los materiales que usted necesitará para realizar la recolección de la muestra de orina de 24 horas. Le enviaremos directamente a usted instrucciones detalladas, los materiales para la recolección, la caja de envío para la muestra y una etiqueta de FedEx de envío prepago.
- Si usted planea comenzar a realizar su examen *At-Home Kit* tan pronto lo reciba, tenga en cuenta las siguientes indicaciones:
  - Durante el día anterior al comienzo del proceso de recolección y durante dicho proceso, usted debe comer y beber como lo haría habitualmente.
  - Si usted está tomando una dosis de vitamina C (en forma de pastilla, como parte de un multivitamínico y/o en suplementos) de más 100 mg por día, deberá suspender la toma 3 días antes de comenzar con la recolección de la muestra para el *At-Home Kit*. Podrá consumir normalmente la vitamina C que se encuentra presente en las comidas o las bebidas.
- Una vez que usted haya completado y enviado de regreso el *At-Home Kit*, deberán transcurrir 7-10 días para que su médico reciba los resultados de su examen Litholink.

**¿Necesita ayuda para completar el *At-Home Kit*?** Vea el video con el instructivo donde se explica el proceso de toma de muestras de 24 horas, o escanee el código QR.

**¿Tiene más preguntas?** Envíe un correo electrónico a: [Litholinkinquiry@labcorp.com](mailto:Litholinkinquiry@labcorp.com)
